Paco, u got some good fish on this thread my dude... Speaking of the 1000 Islands I figured I'd post one of the many pike I got into. Most of these fish came out anywhere from 6-12 feet of water. But when it's gin clear, they'll come up for a streamer! Can't wait for the fall to target musky. Actually gonna hit the swatara creek near Hersheypark next weekend and throw some big streamers around and see what takes. This isn't a monster, only 30" but damn do they SMASH flies!
