Well, by the 2nd vid I started tying and I left the playlist run, so I wasn't 100% focused on them but tried to pay attention while I tied.

I went to the F&S store the Wednesday before they did the grand opening and I was impressed with the fly tying selection. Very convenient whenever I'm taking 79 anywhere, and its about 25 minutes from me on the GPS.

I must have spent two hours just looking through everything, as the same salesperson asked me 5 or 6 times if I needed anything. Was kind of a running joke that I just kept re-looking at everything.
