I tie pretty much exactly what you described for steelhead. I tried jazzing it up with krystal flash or a hackle collar but always go back to just a rabbit strip, cone, and a hook. Cream colored rabbit is my favorite and it'll fish well on a dead drift or a swing.

I keep a small cup of water at my vise and use it to stroke the rabbit back as I wind it forward. Tie it off behind the cone and fish. I'll post a picture when I get a chance.
