Fished the east branch of the Brandywine this afternoon from about 2 to 5:30. Beautiful weather, with water temp of 70 degrees. Managed to catch the Brandywine slam--sunfish, fall fish, rock bass, and smallie. The smallie was very nice at about 13". So was the rock bass at about 10". Both caught on a leech. Got the fall fish (also about 13") on top on a hopper along with the sunnies. A lot of fun on a 4 wt.
