That being said, when nymphing in he letort (or most spring creeks - or anywhere for that matter!) I rarely use anything smaller than 4x, most of the time 3x.

Although I agree, you know what Charles Fox said about 4x on the Letort: "4X? We use that for roping bulls around here."

Yeah, I know the nymph and streamer flies many of us use now would probably make Marinaro roll over in his grave too. Most of those gentlemen would only fish to rising fish, not like many of us shlubs who try to yank them out of the weeds!
