Haven't fished that stretch this year. A 10 - 12 inch fish would top anything I've ever caught in that stretch. I was in county park from around 9:00am- 12:00pm. Only caught three. Best one on a popper. Not having much success in there this year. Fish seem few and far between. Interestingly, I didn't catch any rock bass. Sometimes you have to move to get away from them.
