I want to get a new 10ft 7 wt for Erie Steel... or maybe. 10ft 6.... Or maybe An 11' switch. I would consider spending the cash on something high end... Or maybe I will keep fishing my entry level rods that work just fine.

Just for fun what do you think is the best Erie rod money can buy?

What are you using and why do you like or dislike it?

I have a 10 7 echo ion that I feel is too heavy in the hand.

I have a Mystic reaper 10 7 that is nicer. Something is weird about the carbon. When the light hits it right there are weird carbon fiber patterns... Hard to describe buy it bugs me
