Glenny,

Welcome to the forum and to S. York County! PM me and we can see about getting together to fish, although my schedule can be tricky.

As for S. Codorus Parts of it hold trout all year, fishes well Nov-may for browns and whatever they stock in April/May. Can get crazy in April lots of fisherman.

Downstream past 7 valleys it can be a good warm water fishery, although this year has not treated me well. Past few years good for small smb as well as Rock bass and red-breast.
