URL:

We just added a briefcase box, furred leaders, tippet rings, and paste floatant to the line up. Hop on our site and save 25% on these new products until September 12th with code "25new".

Right now we're putting all our efforts into our ITB rods. We expect to have our first production of rods according to our specs in a few weeks to do the final tests to. If they pass we hope to have a handful of sizes of these rods available in a few months. Keep in touch.
