I peeked at Coontail's profile, and he's from Orangeville....so I would guess he's asking about the Fishing Creek in Columbia County.

I suggest members ID'd the streams they are asking about a little more precisely, so they can get more and better responses from fellow members.

BTW, how's Trout Run been fishing?

Also, it would be great if more members included their location/address in the "From" line which appears under their avatar. Just listing a County or Region of the State would be a help.
