1, there are no western streams included in the early opening day. The early opening day is only for SE Streams, the list is going to be added too because some of the streams affected cross over county lines and those sections are the sections to be added. All this is available on the PFBC web under Regulations and Laws. Look for the topic Rulemakings.

I'm not sure I get your point...perhaps thats where you and Lou fell out of love...but anyway...Do they not have any extended season (march 1st thru March 31st) waters in the eastern part of the state?

If they do, and they are usually approved trout waters, when are they going to stock them? The night before opening day...?!
