Here is a sculpin pattern that I tie using rabbit strip. I did throw in a few strands of black krystal flash on both sides of the tail and I tied in two clumps of brown marabou just behind the sculpin helmet for pectoral fins. I tied it on a size 8 4XL streamer hook that rides hook up with the point totally covered by the palmered rabbit strip. The head is a Fish Skull Sculpin Helmet - Size - small in olive. I also wrap some heavy lead wire on the hook before palmering the rabbit strip so this fly sinks like a rock and stays on the bottom where the sculpins hang out.
