URL:

At Harman's the North Fork water volume has been the best ever. Harman's held over trout for the first time in my lifetime in the whole private access stream. We've already stocked additional trout in late August and another 1250 lbs will be stocked in the next 7 days.

Our trout fishing giveaway is mid week Sun-Thur 2 night stay 4 person cabin with private hot tub and pass to private stream access at Harman's. To enter just comment in this thread. I'll select someone by Friday, so you can plan for next week or the following weeks in September.

We look forward to a great fall and trout fishing season.

Thanks again for all of your support.

The Harman's.
