Used the arm pretty hard the past several days. Got to camp Wednesday night. Drove through rain like I never have before. Saw Noah twice, passed him once heading east on 322 and the storm must have been too rough for him and he turned around and I saw him head'n west just shy of Lewistown. Just an amazing amount of rain. By the time we got to Mt.Union it had dropped to a drizzle and by Mill Creek nothing to speak of. Weed whacked a jungle on Thursday, this is good for my shoulder right? Fished the LJ and Spruce on Friday and did ok on both. Didn't set the world un fire but caught fish and had fun. Shoulder is give'n me grief but nothing I can't deal with. Towards the end it was hurt'n just setting the hook... So I switched to my left arm. All n all a good time at camp. Head'n back up as soon as I take out a 2nd on the house to pay for truck inspection!! Tires, upper n lower ball joints, tune up, some kinda whacky valve for emissions.... I am taking donations. Hope all you'ns had a good weekend. We did!
