JackM,

Good to know about the water concerns - waders it is, then.

The sunscarf just tends to stay up there for some reason, not really sure why - definitely not my style to go bandido or anything. I keep telling the missus not to starch it, so I do not think that is the reason why, but it always just seems a bit stiff. I guess I should start to flip it around behind me before I pick up the fish in the future...
