Correct - the small trailer pictured above is not included.

You'd want a longer trailer anyway. This one above works well 10 foot boats. I'd suggest looking for an older bunk trailer or jet ski trailer.

something like a Karavan KBE-1250-46 bunk trailer (Cableas has them or local dealers for approx \$650. Works very well as a pontoon, raft or small drift boat trailer and won't break the bank.
