Anyone Used the TALS Fly Fishing System?

URL:

I've been looking to get my 84-y/o father out of his old fly vest and into something more convenient for his forays to his favorite Westmoreland and Somerset County streams. My Dad's eyesight and coordination are still good, but I think he really could use something compact that he can work on, to his front, rather than to his sides and waist.

I saw this: <http://www.tals-fishing.com/TALS-600.cfm>, online, and wondered if anyone has any experience with it? Utility, Ease of use, Durability...that sort of thing. The company is located in Turbotville, in Northumberland Co., so I'm hoping that someone here has some insight on it.

Thanks much.

Mike
