Nice! You did a whole lot better than I did on the Conestoga last evening. I got my butt kicked by the 'Stoga last night. Couldn't hook up on a single smallie. Had a few decent hits that I missed and did catch a few really pretty Redbreasts. I fished some really great looking water that just screamed "SMALLMOUTH", but to no avail. The wind was a bit of an issue (but I am not one for making excuses), some nights its just not meant to be. Anyway, it was a beautiful September evening to spend on the river and that is exactly what I chalked it up as. I am hoping to get into some decent fall smallmouth fishin' this year.
