Where do I go....SC Pa????

URL:

I currently have a "float" trip planned for the Potomac on day this weekend, however that may not happen due to others backing out.

So having said that I am starting to shift to "Plan B"...

Would appreciate suggestions from anyone on good spots for Smallies that I can wade. I could do Trout as well (but my skills may not be up to that just yet) I have all day Saturday to myself and don't want to waste it.

Not asking for anyone's "hot spot" just looking for stream recommendations and best access points. Exploring is half the fun. Have ventured into SC Pa a little but still learning the territory.

Thanks, FW
