I recently purchased amber lenses for my polarized Oakley Gascan's. The glasses originally came with gray lenses. I left one gray lens in and replaced the other with one of the amber lenses. I fished 2 different streams within the past week and compared water clarity with both colored lenses. The amber definitely out performed the grey in every circumstance.

For Military personnel, you can get discounted Oakley sunglasses at <https://www.oakleysi.com/>. I think emergency personnel like EMT's and firefighters can get the discount as well. My Gascan's costed less than \$100 and the replacement amber lenses cost under \$50. Easier to justify spending the money when you get roughly a 50% discount.
