Iso's, BWO's maybe some caddis. I've been on the lehigh in the gorge 3 times in the past 2 weeks and the first time they were keyed in on the stoneflies(yellow) and the last two times it was all about the iso's. I had pretty good luck with parachutes and rusty spinners but I had to lighten up my patterns some. Duns are like a light brown with tan tails and the spinners are more like a rust color or burnt orange almost.
