I tie my own and have for 42 years. When I first started it was with my Dad. We had a Thompson A vice and a pair of hackle pliers. Got tread and wax from my Moms sewing table. We learned together. All we had where a couple of books. No internet back then. Great memories. Dad has since passed. I will always tie. It has become a huge part of my life. I am guessing it will always be so.

Thanks,

GenCon
