Cows are not dangerous.

Bulls are very dangerous though.

They've killed a lot of people over the years. Never take chances with them.

Never go in a pasture where there is a bull.

This response is more of a disclaimer than anything. Troutbert gave good advice and I wasn't trying to discount this in any way with my comments. In fact, I hadn't read his before I wrote mine. The bulls can be quite dangerous. Awhile back, the father at the farm just up the road was killed by his own Angus bull.

My bull is more like a pet ... to us. However, I don't know what he would do if a stranger walked through the pasture without one of us with them.

Don't turn your back on them. They can kill someone by accident or while just playing around.
