Forbidden Lehigh County park?

The Lehigh County Conservation Demonstration Project is a public park (to my knowledge) and has a 4 acre pond in the middle of it. From word of mouth there is some nice fishing to be had, but my question to you is...

Has anyone been here, or fished this pond?

How do I access it? Found a single road that comes close but its posted at the entrance.

The benefit for me is its 5 min down the road. Would love to take my family here, but it seems it might be off limits. Im gonna call Lehigh parks and recs but was curious if you SEPA guys know of this place.

Not sure if this the correct thread location, sorry if not.
