Sweet info. I am also taking the girlfriend there the second week in october. Are the grills gas or charcoal? I was expecting to pack everything--cookware, utensils, food, drinks, possibly charcoal if necessary. I hope the fishing is everything I have read it to be.

Biker, you better report back after you go!

We'll be down the same week. Stop by. We are in cabin 15 at the end of the road. The grills are charcoal. Bring your own. You don't have to bring cookware as the cabins have all of that. You may want to bring grilling stuff like a cleaning brush and fork.
