Dave - I think I've got it now...ignore the report I just posted. Again, I sympathize with you for what you've had to go thru the last few days. And probably the next few weeks!

I had wanted to reply to the poster of the old thread on the PAFC recent press release re: wild/stock trout study, but apparently it can't be done.

When everything is settled down, please feel free to "light up" the Potter County Destination block with my Fly Fishing Potter County site. (<http://www.pennswoods.net/~tomdewey/fishing>).

Tom Dewey
