A localish(under an hour) stream I fish in the fall got removed from the list. There's two other stocked streams nearby that are still getting stocked this fall but I am a little bummed about the one not being stocked to be honest. **Noticed two other ones I fish also got taken off the list too, but I usually only fish those ones in the spring.**

There's always real trout.....

Last sentence of first paragraph is why they have dropped some of the fall stockings..
