I have and will continue to purchase single year licenses. I fail to believe that any organization can really get a large splash of money and then properly budget it for years to come. I will continue to purchase annual licenses to ensure an annual stocking in my local streams. I have already noticed a decrease in state stocking, and an increase in privately funded stocking programs.

I understand the general feel is to decry farm raised trout in favor of native trout, but I'm just not that good of a fisherman yet. Give me my sacrificial trout and I'll give you one less fisherman on your native brook stream.
