Now, for the funny story. When we got there yesterday 4 guys were getting in a car. They had fly gear....what appeared to be 6wt rods. I was cracking up. That creek requires 3wt rods maximum. Leave the steelhead gear at home 😊

I don't think that is funny at all except for your choice of the word "requires." I believe what is required is what you have.

BTW, a lot of us old timers would find it funny that anyone would think a 3wt or smaller is required.
