Dear foxfire,

You picked up a nice rod, congrats!

Just slap a Pflueger 1494 or 1495 made in Akron OH on it and you will be all set.

If you plan on using the rod you might want to P/U a Cortland Sylk line in a DT5 or WF6 for it. I use Sylks on my South Bend rods and find that they work nicer than a lot of the modern flylines because the narrow diameter shoots well through the smaller stripping guides on the older rods.

Good luck!

Tim Murphy 😊
