We often debate that the commish spends too much on this and not enough on that, but unlike our taxes that go into that black hole we call the general fund, every dollar collected by the Commish is spent on something to benefit anglers and angling.

Whether it's your opinion that the Commish is spending their dollars wisely or not (I think the dollars are well spent for the most part) the numbers themselves are out there to see, like reading a prospectus for a stock you own or are looking to buy.

Current revenues (license sales) and projected revenues are down and costs and expenses are up. If the FBC were a stock.....I'd sell! (or not buy).

Again, IMO, not a good idea to starve the golden goose, or in this case, the golden rainbow.....
