I know very little about the Monocacy in Bethlehem. I'm staying at my cuz's house, w/in walking distance of the stream right in the downtown area. This is a family weekend as we'll be in the area for Celtic Fest. However, I'm taking a rod and hope to sneak out for a few hours Saturday AM (8am to 10am or so, before the big parade). Is the park worth fishing? I've read there are some wild and holdovers in there. From what I understand, it's a spring creek? So, scuds, etc are the norm?
