Looking at getting a reel for my Scott G 14' 9 wt Spey, must be Saltwater friendly and have a great drag, This also will see duty as a Salmon Steelhead reel for Niagara/Genesee, as well as for Delaware River Stripers.

Right now its either a Ross Canyon #6 or #7 or possibly a Allen Kraken ..will have to hold my Airflo Delta full floater an appropriate sized backing.

Anyone have any input on larger Allen reels? I sent a message via Facebook and also their website..have heard nothing back.
