Pat, you cold always test it on yourself to see if it works!

See, now you're thinking. With all of this crap going on in medicine, I figure we gotta come up with ways to cut health care costs. So, I have come up with a couple of ideas.

My 1st idea was for the home vasectomy kit. You actually get 3 kits in 1. You use the 1st 2 to practice on your cat and your dog and then you are up...

See, the home colonoscopy kit could be the same way. Shoot, if you can snake the colon of a brook trout...a human colon is nothing!
