Simms original guide waders +8 years have tons of trips on them purchased replacements back when guides were on close out about 4 years ago they are still like new with 3 outing on them. Yes I do routine maintenance on them every year with aqua seal on pin holes. got to love the rubbing alcohol trick with goretex. Wife has the black foot waders when they were made in the USA she, got her fair share out of them too. about 7 years. aquaseal and revive-X are necessary for extended use.
