fly tying classes in your local fly shop to me is the ultimate tying video. nothing beats hands on with a good instructor to teach you the basics.

or you can check out this series from scflytying. part 1 below but theres more

<http://www.youtube.com/watch?v=DB6tss3hGZc>

scflytying channel

<http://www.youtube.com/user/scflytying/videos>

i find that a lot of tying videos (not all) (you tube, vimeo etc) are just music videos with fly tying in the background or the tyer in the video simply ties too fast for any beginner to follow and that usually means that techniques are often forgotten to be mentioned. some tyers talk so fast the sound needs to be turned off.
