I do have to relate a funny story. When I lost my Dr. Slicks this weekend I went to my local CVS to see if they sold them. All the youngsters who worked there had no idea what I was talking about. When I google imaged the hemostats for them they said they didn't sell "roach clips" at C V S!

That is funny, just shows the difference in mind set. I went into a right aid to buy pipe cleaners to clean my Springfield and got carded, for pipe cleaners!
