Yough/Meadow Run/Laurel Hill in OCT

Hello,

I am new to the site, been reading up here the last few weeks. I have made friends with some PA guys transplanted to Columbus OH, and it appears we will be spending more time fishing in your state than ours lol.

Im going to be in Ohiopyle at the end of Oct. Anyone have any insight on how the Yough, Meadow Run, and Laurel Hill are fishing right around now or how they typically fish at the end of Oct? I looked at gauges and temps for the Yough, they look halfway decent, maybe a tad on the low side for the flows. I've gone back to old threads and not found a whole lot about this area in the fall.

Any info would be much appreciated

Regards,

Chris
