We did have trout survive the summer on Meadow Run in good numbers, but probably not on lower Laurel Hill. The upper DHALO section of Laurel Hill probably did hold trout over this summer. With the fall stocking there should be great fishing in the Laurel Highlands this fall. Add Dunbar Creek to your list of streams near the Yough to try this fall, there is a 4 mile FFO section.

I don't have much personal experience with fall fishing on the Yough, but it should fish well in late October.
