The South Fork Rod Company makes great, no frill rods. Cameron from the Fiberglass Manifesto sent me one of their 3wts to use when I go to the Smokies next week (.....? Not lookin' good!). I didn't like it when I first casted the rod in the yard. It was actually "TOO SLOW" for me! (quiet Biker!). I got it on the water this past Saturday though, and absolutely fell in love with the rod. I highly recommend the SFRC.
