Guys, we didn't camp out the the areas that we fished, but there was plenty of good spots over on Rock Creek. Over at the West Fork we stayed at the Traveler's Rest they had nice little log cabins with fridg and stove. Also the price was reasonable. Over at Rock Creek we stayed at the Rock Creek Mercantile. Decent fly shop there and they had there rooms right behind the shop and reasonable price. Bikerfish, Yes the fishing out there spoiled us a little, but I still think we have some great streams here in Pa that are equal. Boy, I wish we had some of those cutthroats here in our waters. And as some of you guys know I am a dedicated wet fly fishermen and nothing against fishing dry flies, but they were out of the question for us. But if I make it back there again I think I would head over to the East Fork and feed some dries to those fish. It looked like good dry fly water. Reminded me of a few streams in Potter county. The other guy from here that I forgot to mention that gave me some good info was csoult thanks Cody.
