Yes, it is absurd for this to be closed to the public... what I find even more absurd is for it to be closed off to tour guides, fishing guides, hunting guides etc... who gave money to the state and paid for National park permits to work there and make a living. A park permit to guide in Valley Forge is through the roof. What are they telling these people? Do they think guides are just there for a hobby? Americans should be outraged. NICE of them to close the parks down at the most beautiful time of the year.
