Recently picked up a copy of Mike Heck's Spring Creek Strategies and am about half way through. I like the sidebar format with some of Mike's antidotes and fly patterns. Certainly should be part of any fly fisherman's library. Some of the great photography makes you want to jump in the car on a cool fall morning and head for the Cumberland Valley.

Mike includes some interesting patterns he developed. You have to wonder if there isn't another book coming on just the fly patterns? I am going to make a point of searching him out at one of the fly shows.
