"The "very small percentage" thing is highly exaggerated."

right PAFF posts are sooo typical of the trout fishing public. for example, there were 487,000 trout&salmon stamps sold last year and there are 10 PAFF members logged in right now.

not only a small percentage, but a self selected and atypical small percent of the states trout fishers.

for even 10% of the states trout fishermen to be eligible to post here, PAFF would need 48,700 registered members. is the real number public?
