Dwight said the "small percentage" point on PAFF posts relevance is overstated. ...

So what percentage of the states trout fishermen can post here? There are 487,000 trout/salmon stamps sold in 2012. PAFF "about us" says the site has "over 5,500 registered members." Assume that 1/3 of the t/s permit buyers don't count for any reason.

then 5,500 Paff reg users divided by 325,000 = less than two percent of the state's trout fishermen who can even post here.

less than two percent. small percentage. even if you assume that all 5500 reg PAFF users are posting.

cant understand general trout fishing public opinion here with a self selected and atypical 2%.

I only speak for myself. That's bad enough :)
