This Week's Special

Get a FREE furlled leader with the purchase of any Alpha Line! October 9th - 15th

That's a FREE \$10 item when spending \$25!

Furled leaders have been around for a long time in the fly fishing world. They're making a comeback lately due to fishermen wanting lighter, more accurate presentations with the light gear they're fishing. Furled leaders leave no memory, have a good flex for fighting fish and are more accurate in casting. The tippet ring we put on the end of ours helps to eliminate the dreaded blood knot and also extend the life of your furled leader. If you haven't tried a furled leader before, now's the time! Grab any Alpha line and we'll throw in a furled leader for FREE. You can add a note to let us know what leader you want (both are 76", in ratings of 6lb and 8lb) or we'll put an appropriate one in for you depending on the Alpha line you purchase. You'll love these leaders once you try them, so give them a shot if you haven't already!

No coupon code necessary, free leader will be put in your order automatically
