They only stocked the lower DHALO area(by the Petroleum Center) this fall. It says they only stocked bows, but it says the same for Neshannock also and this past weekend I caught way more browns than rainbows. The past couple years they only stocked bows in the fall, but it seems the browns are back...

Fishing wasn't easy, but I had luck swinging and stripping smaller streamers in the tailouts. Tons of rejections, but if you stayed at it and casted your streamer to different fish they'd hit. Also got some on hare's ears(sz14ish) and a couple on sz 14 light pink glo bugs.
