FWIW, the new Winston website indicates non-warranty repairs are \$150.

If your rod is not covered under the Unconditional Guarantee, Winston can still service your rod for a standard repair fee of \$150.00. You will first need to fill out the Non-Warranty Service Form.

<http://winstonrods.com/category/about-winston/warranty.php>

There is a form to fill out for non-warranty repairs.

If you are buying a new rod and not repairing the 10wt I will buy it from you.
