A 7 would be a good choice for a second rod... Throw big streamers... Catch bass, steelhead, light salt water, etc. it's versatile rod for big trout and up.

+1. A 7WT is a very versatile rod. Over the course of a year, I probably spend more time with a 7 in my hand than any other fly rod. It's a great big water streamer rod for trout and it covers most of my WW fishing from bluegills to bass.
