Visting my parents house this weekend on the banks of the Susky in West Pittston. Is the SMB fishing any good in that area this time of year? Is the SMB population struggling as much in the North Branch as it is down south?

I did a quick search and saw you guys had a SMB PAFF Jam in Pittston last year and got skunked....

I grew up in that town!

Yup to what FI said. The smallie fishing is good most any where on the NB and fall is a great time to fish it. Good luck.
